DBJ HOCKEY SCORES BIG! | RECOGNIZING OUR DONORS | AND MORE

Making the right decisions for you, your family and your business

Wealth is about more than money. It's understanding that the decisions you make today will have far-reaching implications – for both you and your family.

Whether your wealth management needs are simple or complex, having access to a team of experts can help you develop the plans and strategies that will allow you to maximize your wealth and build your legacy.

We can help you answer:

- How can you reduce your taxes?
- What's the best way to fund a child's education?
- What's the best way to transition your business?
- How can you transfer wealth in a tax-efficient way?
- How can you leave a lasting legacy?
- What retirement income strategies are best for you?

GOLF 2026

A Message from the Co-Chairs

The weather was perfect at the 2026 RBC Wealth Management Donald Berman Maimonides golf tournament which was held on Monday May 25, 2026 at the Royal Montreal Golf Club. Attendees played the renowned championship Blue Course, host of 9 Canadian Opens and the Presidents Cup.

Together, we raised an incredible \$280,000 to fund the Centre for Research in Aging—the most raised in 18 years!!!! Thank you to everyone who is truly making a difference in our residents' lives.

Organizing one of Montreal's premiere fundraising events is no easy feat, and would be impossible without our truly dedicated team of volunteers who are eager to return year after year.

On behalf of the residents of DBM, thank you to everyone who helped make the 2026 tournament a great

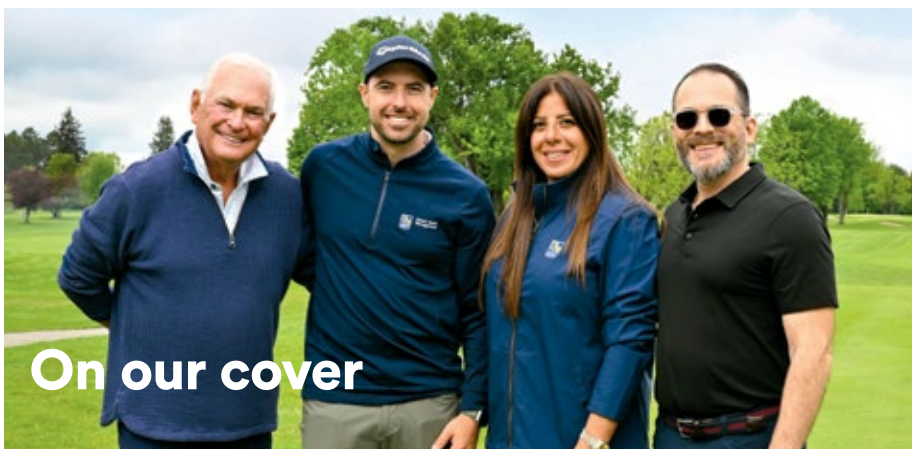

success. It is thanks to our loyal donors, sponsors and volunteers that Donald Berman Maimonides Geriatric Centre is able to provide *More than Care*.

Murray Shulman Z"L

The Donald Berman Maimonides Foundation is deeply saddened by the recent passing of Murray Shulman, a loyal member of the Golf Committee for more than 30 years. Murray worked tirelessly to collect gifts and prizes for the tournament, right up until the very end. His background in sales made him a natural fundraiser—he had a way of making it nearly impossible to say no to him.

Murray's dedication, generosity and commitment will be deeply missed. We are grateful for his many years of service and friendship and extend our heartfelt condolences to his family. May his memory be a blessing. ❤️

Thanks for helping us skate past our goal!!

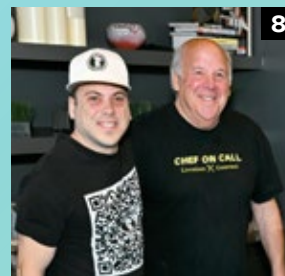

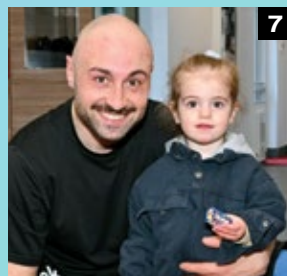

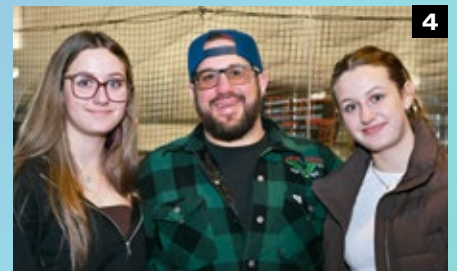

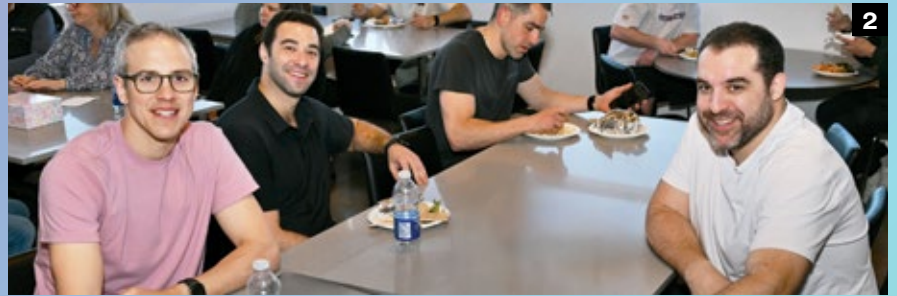

The 14th annual **Stephen and Carol Kosters & Family DBJ Hockey Tournament presented by BMO Private Wealth/ Scotia 1832** was held on Sunday April 26, 2026 back at Hockey Etcetera. Six teams played 3 on 3 hockey in a round-robin format. We raised an outstanding **\$125,000—the most ever!!!**

Monies raised at Hockey 2026 will fund our ongoing cultural and quality of life programs to enhance the daily living of our 320 residents. These include visits from Dr. Clown, holiday programming and snacks, leisure activities and concerts. These are all programs not funded by the government.

Congratulations to **Team Olymbec** for taking home our very own **STANLEY HYMAN CUP** for the third year in a row!!!

For more information, please contact Lisa Kasner at 514-738-4500 #72125.

The future is here: AI Pilot Project Enhances Resident Care at DBJ

A pilot project on the fourth floor of the Kastner pavilion at Donald Berman Jewish Eldercare is using AI technology to improve resident care.

The technology, developed by AMBA, continuously monitors the residents' heart-rate, breathing, sleep patterns and activity levels. AMBA collects the information from discreet devices placed around a resident's room. These devices include a sleep mat, motion sensors, and door sensors that send real-time health and well-being data to the caregivers' dashboard. This allows the nursing team to be alerted to important changes in the residents' routine or pattern through an immediate phone call or alert on a dedicated cell-phone. It is all done discreetly without wearables, cameras or microphones.

"AI technology doesn't replace human care," says Jennifer Clarke, Director of SAPA, adding. "It supports the staff and gives them additional tools to be more efficient and to provide personalized care."

"AI technology doesn't replace human care, it supports the staff and gives them additional tools to be more efficient and to provide personalized care."

— Jennifer Clarke, Director of SAPA (Support Program for the Autonomy of Seniors) at Santé Quebec's West-Central Montreal

For example, if a resident falls, staff is notified immediately and can respond within those first critical moments, rather than relying on a scheduled room check to discover an accident.

Beyond urgent situations, care teams are also able to provide more proactive and personalized care as the AMBA system identifies early signs of health deterioration. As well, by continuously monitoring vital signs, the system can often eliminate the need to wake residents during the night, resulting in better sleep and quality of life.

The AMBA "smart room" project is funded by Donald Berman Jewish Eldercare Foundation, with support from OROT – the "Connected Health

Pictured above: DBJ Nurse and Team Leader Jovilyn Deatras shows Director of SAPA Jennifer Clarke the AMBA dashboard and demonstrates where one of the AMBA devices is hidden

Innovation Incubator" of Santé Québec West-Central Montreal Health and Social Services University Network. Funding sources also include *envisAGE*, a federal and provincial initiative supported by MEDTEQ+ and AGE-WELL.

[The system] identifies early signs of health deterioration...and can often eliminate the need to wake residents during the night, resulting in better sleep and quality of life.

The current pilot project at DBJ is 32 resident rooms. Formal data analysis is ongoing. If it is proven to be successful, the system will be expanded to other floors at DBJ as well as DBM.

Scan here to watch a video about the AMBA project created by Santé Quebec West Central Montreal!

MISSIVES graduate!

Congratulations to the 2026 MISSIVES who graduated in July. The 28 eager students ranging in age from sixteen to forty-one, could be seen roaming the halls at DBM and DBJ this summer in their recognizable blue shirts.

MISSIVE (Maimonides Intensive Summer Session for Individual Volunteer Experience) is a unique summer volunteer internship program for students, many of who are contem-

plating a career in a healthcare-related profession.

The 4-week summer experience provides exposure to a multidisciplinary environment with a geriatric population. Besides attending weekly workshops and seminars with healthcare professionals, the students volunteer in a placement that best suits their interest. Placements this year were in Nursing, Clinical Nutrition,

Recreational Therapy, Art Therapy, Rehab, and Dentistry.

This program is hugely successful. Over 90% of past MISSIVES who applied to Medical School have been accepted!!!

Thanks to the Foundation for the funding to make this program possible!

Centre de recherche
sur le vieillissement
DONALD BERMAN
MAIMONIDES
Centre for Research
in Aging

You could be eligible if you are:

- Age 65 or older
- Retired & receiving old age pension
- Living alone

Study requirements

- The program will involve participating in small group problem-solving for a concern important to you
- These meetings will take place approximately every 2 weeks for about 18 months

Stay Sharp for the Future: Be Part of the APROACH Dementia Prevention Study!

We are testing a program designed to boost brain activity and strengthen important thinking skills, like memory, problem-solving, and decision-making, to help prevent or delay dementia.

The Authentic Participatory Research for Older Adult Cognitive Health (APROACH) Pilot study

IRB #2025-4112

Participant benefits

You will receive \$50 for your participation in each group meeting

Making an Impact On and Off the Stage

The boardroom at Donald Berman Maimonides was recently renamed The Kandestin Family Boardroom in recognition of a generous gift from the Janice and Gerald Kandestin Foundation.

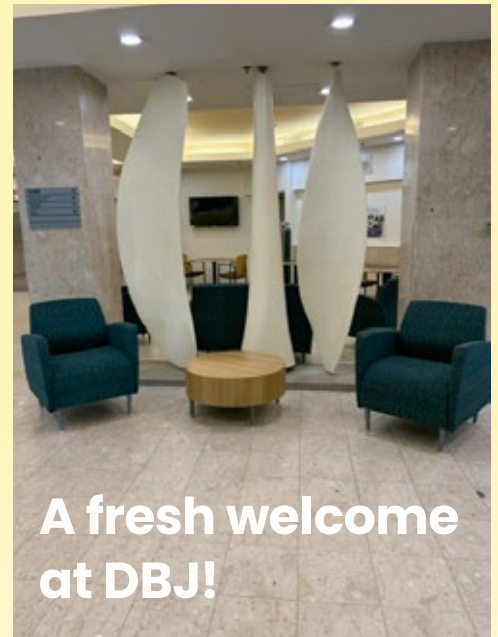

Gerry Kandestin's passion for music first brought him to Maimonides more than 20 years ago through Battle of the Bands—initially as a performer and later as co-chair. What began with a love of music grew into a deep appreciation for the important role Maimonides plays in the community and the exceptional care and services it provides to its residents.

"My musical passion got me involved with the Centre and I have come to understand the important place Maimonides occupies in our community and the amazing services it offers. It is my absolute pleasure to support this outstanding institution."

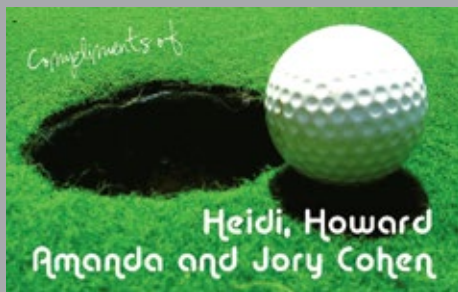

The naming of **The Kandestin Family Boardroom** celebrates Gerry's long-standing commitment to giving back and making a meaningful impact both on and off the stage.

A fresh welcome at DBJ!

The front lobby in the Kastner Pavillion at Donald Berman Jewish Eldercare has been given a refresh with new furniture thanks to the Foundation. A warm and welcoming space for all to enjoy!

All Shook Up About the Future of Philanthropy

Members of the Foundation team recently went to Memphis, Tennessee for a Development Summit with AJAS (Association of Jewish Aging Services) hosted by the Memphis Jewish Home. This unique leadership event brought together fundraisers, business partners and industry experts to discuss and plan for future philanthropic challenges and success. One of the highlights was a panel discussion with local philanthropy leaders from St. Jude's Children's Research Hospital, Habitat for Humanity and BRIDGES USA.

A grand entrance

Thanks to a generous donation, the renovated Caldwell lobby at Donald Berman Maimonides has been renamed the **The Sandra and Allen Quallenberg Lobby**. Allen is the past President of the Foundation and the past Chair of the Golf Committee. A L'Chaim luncheon and official ribbon-cutting and dedication ceremony will be held. The renovation includes new furniture, enhanced lighting, and artwork from The Art for Healing Foundation, transforming the space into a beautiful entrance similar to what you would find in a hotel lobby.

To learn more about naming opportunities, please contact Foundation Director Karen Flam at 514-483-2121 ext 72307.

A visit to The Hogeweyk

fulfilling way of life. Spread across four acres, the village is home to around 150 residents, all of whom are living with moderate to severe dementia. Hogeweyk isn't a care institution; it feels like a real neighbourhood, complete with houses, a theatre, shops, cafés, a restaurant, a post office, and green spaces.

This kind of dementia village is a specially designed care facility built to look, feel and function like a small town. Instead of living in a traditional nursing home setting, residents can move around freely and safely, supported by discreet care staff trained to blend into the village environment. For example, a caregiver may take on the role of a shop assistant, neighbour or barista, encouraging active participation in daily life while ensuring each person receives the required care. "It was an incredible experience. We may not be able to create a full village, but there are elements that can be incorporated into the care we provide here," says Clarke.

Foundation Director Karen Flam and Jennifer Clarke, Director of the Support Program for the Autonomy of Seniors (SAPA) for Santé Québec West-Central Montreal, recently went to Amsterdam to visit the "Amsterdam Dementia Village," known as The Hogeweyk. It's a groundbreaking care model that offers people living with dementia a more independent,

Beyond the Floor: A New Model of Resident- Centred Care

A new approach to care is taking shape at Donald Berman Maimonides and Donald Berman Jewish Eldercare—one that puts the resident, rather than their level of care, at the centre.

Traditionally, residents were grouped by their stage of illness or level of care, with designated floors serving specific populations. Care and activities were tailored to residents based on each floor's mandate. When a resident's needs changed, a move to another floor could be necessary.

That model is changing.

Through a **micro-milieu approach**, residents with different abilities, diagnoses and stages of illness live together throughout the building as part of one connected community. Rather than organizing the building around levels of care, the focus is on creating an environment where residents can remain in a familiar setting while their care adapts around them.

"Our resident profile has changed so much since COVID that the floor-mandate system no longer works," says Hetal Patel, Assistant to the Director of SAPA. "We need to adapt to our changing clientele."

Each resident continues to have an individualized care plan based on their unique needs, preferences and goals. They are no longer restricted to one floor. Residents can participate in activities throughout the building, connect with different groups and enjoy programs wherever they feel most comfortable.

Each resident continues to have an individualized care plan based on their unique needs, preferences and goals. They are no longer restricted to one floor. Residents can participate in activities throughout the building, connect with different groups and enjoy programs wherever they feel most comfortable.

The approach also recognizes the value residents can bring to one another. Mixed-community living creates opportunities for meaningful connections among people with different interests, abilities and experiences. At the same time, residents with more advanced needs remain active members of the community rather than becoming separated from it.

The new model also eliminates the need for residents to transfer between floors when their care needs change. Residents can remain in the rooms and environments they know, surrounded by familiar staff and other residents, while the care team adapts to their changing needs.

It is an approach rooted in **value-based health care** — one that considers not only the medical needs of the resident, but also their quality of life, relationships, independence, dignity and sense of belonging.

"There is more and more research that points to this as the best model for long-term care," says Guillaume Deschenes, Assistant Manager to the Director of SAPA. "We recognize that it is an adjustment in the way of thinking for staff and families. But this is the way of the future, and it is ultimately about doing what is best for our residents."

Kiddush Fund

Interested in sponsoring a Kiddush at DBM or DBJ?

The Donald Berman Maimonides Foundation and Donald Berman Jewish Eldercare Foundation are accepting donations to the **Kiddush Fund**.

Monies will be used to purchase fruit cake, gefilte fish and grape juice for Saturday services. Your gift will be acknowledged during the Kiddush and on the donor recognition page in the *Perspective* newsletter.

A tax receipt will be provided for the amount of your donation.

Contact the DBM Foundation office at (514) 483-2121, ext. 72207 or the DBJ Foundation office at (514) 738-4500, ext. 72124 for more information.

A true VolunthERO

The Donald Berman Maimonides Foundation mourns the recent passing of **Carol Kusters**, a beloved volunteer at the golf tournament and treasured wife of Foundation President Stephen Kusters. As a rover for the volunteers, Carol could be seen riding the Courtesy golf cart that bore her name with a perpetual smile on her face and catering to every need of the volunteers.

Whether she was taking them for a break, providing food or transport, she was always warm and kind and full of spunk. She gave tirelessly of her time, her energy, and most of all, her heart. We will deeply miss her devotion and of course that contagious giggle. ❤️

Commemorative benches leave a lasting legacy

A new commemorative bench was recently unveiled in front of Donald Berman Maimonides, in memory of **Morty Fruchter** from his wife Ethel and family.

The bench provides a space for families, residents and others to visit. If you would like to dedicate a bench in memory or in honour of a loved one, please contact Lisa Kasner at 514-483-2121 ext 72125.

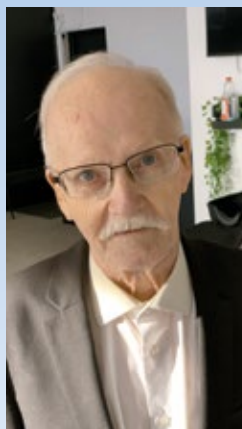

Pictured are Ethel and her daughter Luana enjoying the bench in memory of Morty.

The Foundation makes wishes come true

The award-winning **Simon Chang Foundation for Change Moment in Time** program gives families, staff and residents the opportunity to nominate a resident for a simple wish come true. The “wishes” may range in scope – from enjoying a favourite restaurant or concert to hosting a celebration for family and friends. Wish requests are reviewed on a regular basis by an interdisciplinary committee. Here are photos from some of the latest wishes granted at both DBM and DBJ.

Clockwise from top right: Harvey Lipstein enjoys a visit to the Old Port; A couple celebrating their 50th wedding anniversary enjoyed lunch from their favourite restaurant; Mr. Stewart Lowndes was thrilled to go for a drive to the barber followed by a bagel snack; Mrs. Pearl Fisher got to visit her family's business, which recently became a part of the Montreal Jewish Museum, followed by lunch at Schwartz's.

When you invest in the community, everyone gains

The staff at Donald Berman Maimonides does more than treat clients with dignity and respect. Through innovation, training and research, they have raised the standards for geriatric care, and dramatically improved the quality of life of our loved ones.
